

Giant Type (height: 2,5 à 3,1m)

BAMBOU

One try and you'll never look back!

THE GROWERS' FEEDBACK:

- Excellent vegetative vigour
- High yields
- Fruits with high aesthetic quality
- Bunches easy to cut and easy to box

	To choose for:		
	Conventional agriculture	With regular deleafing*	In nitrogen limiting conditions**
Bunch weight (kg)	46	41	33
Ratooning (j)	195	187	266
Fruit number	259	254	219
Fruit Length (cm)	22.5	21.6	20.2

The data comes from a varietal trial conducted in the French West Indies from 2019 to 2022.

* a difference of -3 leaves relative to the control (conventional agriculture) was maintained throughout the cycle. The harvest was carried out at 0 leaves.

** nitrogen soil concentration below 50 mg/kg, the critical threshold.
